DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-14 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. Claims 1-14 contains the phrase "e.g." renders the claims indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention or not, and the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. For example, in claims 1-4, "e.g. a FIFO" should/better to be changed to a FIFO intermediate store; and claims 6 & 11, "e.g." should/better to be omitted.

b. In claims 1 & 3:

i. Line 5, the phrase "different-type interface input" signals" lacks proper and clear antecedent basis.

ii. Line 8, the phrase "differing channel protocols" lacks proper and clear antecedent basis.

Allowable Subject Matter

2. Claims 1-14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

However, any amendments to the claims that broaden the scope of the present claimed

invention would potentially require further search and consideration for the Final Office action. Examiner kindly asks and suggests the applicant to carefully amend the claims so that the indicated allowable subject matter of the present application can be expeditiously prosecuted for the compact prosecution.
